

LOVELY MAE CHAVEZ

Software Engineer I | Backend Developer

Binangonan, Rizal, Philippines

09063483789 | chavezlovelym@gmail.com

PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 2+ years of experience building enterprise systems, workflow automation, and payroll computation logic. Skilled in Django, REST APIs, and cloud deployment on Azure. Experienced in integrating third-party systems (Microsoft Graph API, SharePoint) and supporting full software development lifecycle including testing, deployment, and UAT.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C#, HTML, CSS

Frameworks: Django, Django REST Framework, React, Vite, Tailwind CSS

APIs & Integrations: REST APIs, WebSockets, Microsoft Graph API, SharePoint, Azure AD, Microsoft Teams App Development & Deployment

Databases: PostgreSQL, MySQL, SQLite

Cloud & DevOps: Azure App Service, Azure VM, Git, SSL Configuration

Testing: Unit Testing, Integration Testing, Functional Testing

Concepts: Agile Development, System Design, RBAC, Workflow Automation

PROFESSIONAL EXPERIENCE

Software Engineer I

Microgenesis Business Systems | Nov 2025 – Present

- Maintained and enhanced enterprise systems including payroll and task management platforms
- Designed and implemented REST APIs and integrated third-party services
- Developed rule-based payroll engine (overtime, holidays, rest day, night differential)
- Deployed and managed applications on Azure (App Service, VM, SSL)
- Conducted unit, integration, and functional testing; supported UAT
- Participated in code reviews and ensured high-quality, maintainable code

Backend Developer

Microgenesis Business Systems | Aug 2024 – Nov 2025

- Designed and developed scalable backend systems aligned with business requirements
 - Collaborated with stakeholders and business analysts for system specifications
 - Built APIs and integrated enterprise systems with external platforms
 - Developed AI chatbot and document management systems
 - Performed debugging, maintenance, and testing of applications
-

PROJECTS

CHRONOS – Time Tracking & Payroll System (2025)

- Built enterprise workforce system with task tracking, timesheet workflows, approval processes, and payroll computation engine
- Implemented rule-based payroll logic including overtime, holidays, rest day, and night differential calculations
- Developed real-time notifications using WebSockets (Django Channels)
- Designed and exposed REST APIs for workflow and payroll modules
- Integrated system with Microsoft Teams by deploying a **custom Teams application for internal workforce access**
- Deployed and maintained backend services on Azure (App Service, VM, SSL configuration)
- Ensured system reliability through unit, integration, and functional testing

RDMS – Research Document Management System (2024)

- Developed document lifecycle system with role-based access control (RBAC)
- Integrated Microsoft Graph API and SharePoint for document storage
- Implemented OTP authentication, activity logging, and real-time updates

DIGIBOT – AI Chatbot System (2024)

- Built chatbot using Python and Azure OpenAI for automated user support
- Designed context-aware responses to improve workflow efficiency

Doce-Amor Wellness Spa Website (2026)

- Developed responsive frontend with React, Vite, and Tailwind CSS
- Focused on clean UX/UI and mobile-first design

EDUCATION

Bachelor of Science in Computer Science
University of Batangas | 2020 – 2024

CERTIFICATIONS

Microsoft Certified: Power Platform Developer Associate (2025)
AWS Academy Graduate – Cloud Foundations (2024)
Cisco Introduction to Cybersecurity (2023)

ACHIEVEMENTS

Cum Laude | Dean's Lister | Best in C++ Project
